Director General's Message

During the month of October, the core activities of AMGC, capacity building in the form of short courses, were carried out at the Centre for participants from different member countries. Four training courses: namely: Sampling and preparation of Geological materials for laboratory testing; Data integration and Mineral targeting, web mapping, and Analysis of precious metals.

These training courses are attended by participants from Sudan, Mozambique and Uganda. The newly introduced short courses on petroleum geosciences in collaboration with an Egyptian Petroleum Consulting Company called EREX was launched during the month for the first group of course to be carried out during December 2018 – February 2019.

The Director General was on three separate missions promoting the Centre's activities. He was one of the panelists in the African Mining Summit 2018, which was held in Gaborone, Botswana. He also attended the Madagascar Gems and Jewelry Fair in Antananarivo, Madagascar. The Director also visited the Ministry of Mines and Petroleum of Ethiopia to discuss issues on how Ethiopia maximize the benefits from AMGC.
